Readers IFC, REVIT, NAVISWORKS,
Writter IFC,

- Geolocation information, positioning, 3D model, tessellation, hierarchy, geometrical details

- Metadata, materials, strains, dimensions, part number, user defined properties, attributes, colors, textures …

- Types, families, instantiation, other informations.

Global approach

- **Optimum results: complete e**xtraction of available data**,**

- **Single structured API:**
  Homogeneous integration environment,

- **Regularly updated solutions:**
  New versions available every quarter,

- **Comprehensive reference guide:**
  Smooth integration and upgrade,

- **Scalable solutions that evolve in line** with the technical and business development of customers' applications,

- **Responsive R&D & support teams:**
  Tailored service from integration to solution delivery,

Integrate our solutions

CrossCAD/Ware
File to File

Converts dozens of formats to the one your application processes.

CrossCAD/Ware
SDK

Allows the extraction and output of 2D & 3D technical formats, embedded in your applications.

Platforms:
Windows, Mac OS, Linux 64 bits

CONSTRUCTION / LAYOUT /
CIVIL WORKS /
PUBLIC WORKS / INFRASTRUCTURES /
ARCHITECTURE …

LONG TERM PARTNER of software editors and application developers

30 years' of experience

Pioneer in 2D & 3D interoperability

Confidentiality respect

Customers all over the world

Additional range of solutions for design offices
